## YOUR EXPERIENCE TOUR OUTLINE

On this tour, you will begin by experiencing a scenic drive to the towns from Christchurch city South through the central South Island and the most incredible scenery in the world. Farms consisting of milking cows and beef cattle, and millions of white woolly sheep, part of the 29 million in New Zealand. Green open paddocks and farms for as the eye can see, and the best thing is very few people.

Our journey takes in farming townships and locale towns with small shops and cafes. Lake Tekapo with crystal clear waters, walk down to the water's edge, view the clear blue skies and fresh air. Snow caped Mountains that merge with the water edge.

## Geraldine Township.
